

Provisions for Dangerous Goods Carried by Passengers or Crew on Pegasus Airlines Flights

Dangerous goods must not be carried in or as passengers or crew, checked or carry-on baggage, except as otherwise provided below. Dangerous goods permitted in carry-on baggage are also permitted "on one's person", except where otherwise specified.

The pilot-in-command must be informed of the location				
Permitted in or as carry-on baggage				
Permitted in or as checked baggage				
The approval of the operator is required				
Alcoholic beverages , when in retail packaging, containing more than 24% but not more than 70% alcohol by volume, in receptacles not exceeding 5 L, with a total net quantity per person of 5 L	NO	YES	YES	NO
Ammunition securely packaged (in Div. 1.4S, UN 0012 or UN 0014 only), in quantities not exceeding 5 kg gross weight per person for that person's own use. Allowances for more than one person must not be combined into one or more packages.	YES	YES	NO	NO
Avalanche rescue backpack , one (1) per person, containing cartridges of compressed gas in Div. 2.2. May also be equipped with a pyrotechnic trigger mechanism containing no more than 200 mg net of Div. 1.4S. The backpack must be packed in such a manner that it cannot be accidentally activated. The airbags within the backpacks must be fitted with pressure relief valves.	YES	YES	YES	NO
Baggage with installed lithium batteries non-removable batteries exceeding—0.3 g lithium metal or 2.7 Wh.	FORBIDDEN			
Baggage with installed lithium batteries: —non-removable batteries. Batteries must contain no more than 0.3 g lithium metal or for lithium ion must not exceed 2.7 Wh; —removable batteries. Batteries must be removed if baggage is to be checked in. Removed batteries must be carried in the cabin.	NO	YES	YES	NO
	NO	NO	YES	NO
Batteries, spare/loose , including lithium batteries, non-spillable batteries, nickel-metal hydride batteries and dry batteries for portable electronic devices must be carried in carry-on baggage only. Articles which have the primary purpose as a power source, e.g. power banks are considered as spare batteries. These batteries must be individually protected to prevent short circuits. Lithium metal batteries: the lithium metal content must not exceed 2 g. Lithium ion batteries: The Watt-hour rating must not exceed 100 Wh. Each person is limited to a maximum of 20 spare batteries. Non-spillable batteries: must be 12 V or less and 100 Wh or less. Each person is limited to a maximum of 2 spare batteries.	NO	NO	YES	NO
Camping stoves and fuel containers that have contained a flammable liquid fuel , with empty fuel tank and/or fuel container. Note: Container must be allowed to drain for at least 1 hour and must be left uncapped for a minimum of 6 hours to allow residual fuel to evaporate.	YES	YES	NO	NO
Chemical Agent Monitoring Equipment , when carried by staff members of the Organization for the Prohibition of Chemical Weapons on official travel.	YES	YES	YES	NO
Disabling devices such as mace, pepper spray, etc. containing an irritant or incapacitating substance are forbidden on the person, in checked and carry-on baggage.	FORBIDDEN			
Dry ice (carbon dioxide, solid) , in quantities not exceeding 2.5 kg per person when used to pack perishables not subject to these Regulations in checked or carry-on baggage, provided the baggage (package) permits the release of carbon dioxide gas. Checked baggage must be marked "dry ice" or "carbon dioxide, solid" and with the net weight of dry ice or an indication that there is 2.5 kg or less dry ice.	YES	YES	YES	NO
E-cigarettes (including e-cigs, e-pipes, other personal vaporizers) containing batteries must be individually protected to prevent accidental activation. Note: On condition to this, no e-cigarettes can be used on board Pegasus flights.	NO	NO	YES	NO
Electroshock weapons (e.g. Tasers) containing dangerous goods such as explosives, compressed gases, lithium batteries, etc. are forbidden in carry-on baggage or checked baggage or on the person.	FORBIDDEN			
Fuel cells containing fuel, powering portable electronic devices (e.g. cameras, cellular phones, laptop computers and camcorders) Note: For further information, contact with Pegasus Airlines.	NO	NO	YES	NO
Fuel cells cartridges spare for portable electronic devices. No more than two spare fuel cells cartridges may be carried in checked baggage, carry-on baggage, or on the person.	NO	YES	YES	NO
Gas cartridges, small, non-flammable containing carbon dioxide or other suitable gas in Division 2.2. Up to two (2) small cartridges fitted into a self-inflating personal safety device, intended to be worn by a person, such as a life jacket or vest. Not more than two (2) devices per passenger and up to two (2) spare small cartridges per device, not more than four (4) cartridges up to 50 mL water capacity for other devices.	YES	YES	YES	NO
Gas cylinders, non-flammable, non-toxic worn for the operation of mechanical limbs. Also, spare cylinders of a similar size if required to ensure an adequate supply for the duration of the journey.	NO	YES	YES	NO
Hair curlers containing hydrocarbon gas , up to one (1) per passenger or crew member, provided that the safety cover is securely fitted over the heating element. These hair curlers must not be used on board the aircraft at any time. Gas refills for such curlers are not permitted in checked or carry-on baggage.	NO	YES	YES	NO
Heat producing articles such as underwater torches (diving lamps) and soldering irons.	YES	YES	YES	NO
Insulated packaging containing refrigerated liquid nitrogen (dry shipper), fully absorbed in a porous material containing only non-dangerous goods.	NO	YES	YES	NO
Internal combustion or fuel cell engines , for further information, contact with your airline.	NO	YES	NO	NO

Provisions for Dangerous Goods Carried by Passengers or Crew on Pegasus Airlines Flights

Dangerous goods must not be carried in or as passengers, crew, checked, or carry-on baggage, except as otherwise provided below. Dangerous goods permitted in carry-on baggage are also permitted "on one's person", except where otherwise specified.

The pilot-in-command must be informed of the location				
Permitted in or as carry-on baggage				
Permitted in or as checked baggage				
The approval of the operator is required				
<p>Lithium Batteries: Portable electronic devices (PED) containing lithium metal or lithium ion cells or batteries, including medical devices such as portable oxygen concentrators (POC) and consumer electronics such as cameras, mobile phones, laptops and tablets, when carried by passengers or crew for personal use. For lithium metal batteries the lithium metal content must not exceed 2 g and for lithium ion batteries the Watt-hour rating must not exceed 100 Wh. Devices in checked baggage must be completely switched off and must be protected from damage. Each person is limited to a maximum of 15 PED. Baggage equipped with a lithium battery, other than lithium button cells, the battery must be removable. If offered as checked baggage the battery must be removed and carried in the cabin.</p> <p>Important: Based on fire risk in aircraft; if a damaged, defective or recalled battery or device is carried on board of an aircraft Pegasus Airlines requires the passenger to keep the battery or device where it can be observed, switched off (not in sleep or hibernation mode) protect from accidental activation (also disabling any features that may switch it on, e.g, alarms) and no to be charged at any time. Cabin crew must immediately inform when a battery or device is damaged, hot, produces smoke, is lost or falls into the seat structure.</p>	NO	YES	YES	NO
<p>Lithium battery-powered electronic devices. Lithium ion batteries for portable (including medical) electronic devices, a Wh rating exceeding 100 Wh but not exceeding 160 Wh. For portable medical electronic devices only, lithium metal batteries with a lithium metal content exceeding 2 g but not exceeding 8 g. Devices in checked baggage must be completely switched off and must be protected from damage.</p> <p>Important: To ensure your safety on board, all small lithium battery-powered personal transportation devices (e.g. mini-Segway, hoverboard, solowheel, airwheel, balance wheel, etc.) are prohibited in both hand baggage and checked baggage on all Pegasus Airlines flights. While occurrences are uncommon, these batteries can spontaneously overheat and pose a fire hazard risk. If these items are brought to the airport, they will be refused at check-in. It will be the passenger's responsibility to arrange for the storage or disposal of such items prior to boarding.</p>	YES	YES	YES	NO
<p>Lithium batteries spare/loose with a Watt-hour rating exceeding 100 Wh but not exceeding 160 Wh for consumer electronic devices and PMED or with a lithium content exceeding 2 g but not exceeding 8 g for PMED only. Maximum of two spare batteries in carry-on baggage only. These batteries must be individually protected to prevent short circuits.</p>	YES	NO	YES	NO
<p>Matches, safety (one small packet) or a small cigarette lighter that does not contain unabsorbed liquid fuel, other than liquefied gas, intended for use by an individual when carried on the person. Lighter fuel and lighter refills are not permitted on one's person or in checked or carry-on baggage.</p> <p>Note: "Strike anywhere" matches, "Blue flame" or "Cigar" lighters or lighters powered by a lithium battery without a safety cap or means of protection against unintentional activation are forbidden.</p>	NO	ON ONE'S PERSON		NO
<p>Mobility Aids: Battery-powered wheelchairs or other similar mobility devices with non-spillable wet batteries nickel-metal hydride batteries or dry batteries</p>	YES	YES	NO	YES
<p>Mobility Aids: Battery-powered wheelchairs or other similar mobility devices with spillable batteries</p>	FORBIDDEN			
<p>Mobility Aids: Battery-powered wheelchairs or other similar mobility devices with lithium ion batteries where the battery is specifically designed to be removed, the battery must be carried in the cabin</p> <p>Note: The battery removed from the mobility aid must not exceed 300 Wh, or for mobility aids fitted with two batteries, each battery must not exceed 160 Wh. A passenger may carry a maximum of one spare lithium ion battery not exceeding 300 Wh or two spare batteries each not exceeding 160 Wh.</p>	YES	NO	YES	YES
<p>Non-radioactive medicinal or toiletry articles (including aerosols) such as hair sprays, perfumes, colognes and medicines containing alcohol; and Non-flammable, non-toxic (Division 2.2) aerosols, with no subsidiary hazard, for sporting or home use.</p> <p>The total net quantity of non-radioactive medicinal or toiletry articles and non-flammable, non-toxic (Division 2.2) aerosols must not exceed 2 kg or 2 L and the net quantity of each single article must not exceed 0.5 kg or 0.5 L. Release valves on aerosols must be protected by a cap or other suitable means to prevent inadvertent release of the contents.</p>	NO	YES	YES	NO
<p>Oxygen or air, gaseous, cylinders required for medical use. The cylinder must be empty</p> <p>Note: Liquid oxygen systems are forbidden for transport.</p>	YES	YES	NO	YES
<p>Permeation devices. For further information, contact with your airline.</p>	NO	YES	NO	NO
<p>Radioisotopic cardiac pacemakers or other devices, including those powered by lithium batteries, implanted into a person, or fitted externally</p>	NO	ON ONE'S PERSON		NO
<p>Security-type attaché cases, cash boxes, cash bags, etc. incorporating dangerous goods, such as lithium batteries and/or pyrotechnic material, are totally forbidden. The carriage of safety equipment contains lithium battery is forbidden on Pegasus Airlines.</p>	FORBIDDEN			
<p>Specimens, non-infectious packed with small quantities of flammable liquid, for further information, contact with your airline.</p>	NO	YES	YES	NO
<p>Thermometer, medical or clinical, which contains mercury, one (1) per person for personal use, when in its protective case.</p>	NO	YES	NO	NO
<p>Thermometer or barometer, mercury filled carried by a representative of a government weather bureau or similar official agency.</p>	YES	NO	YES	YES

Based on; IATA DGR 62 nd Edition, Table 2.3.A, 1Jan 2021

CALCULATION OF WATT HOUR (WH): mAh/1000 x Volts= Watt hour (WH) Or Ah x Volts= Watt hour (WH)
